SUCCESSFUL CONFIDENCE GAME-A Vir-Successful Confidence Game—A Virginian Swindled.—Another successful confidence game was played off by two sharpers, resterday, in which an elderly gentleman, from Richmond, Virginia, named Isaac Mitchell, was swindled to the amount of \$47—all the money he had. He had come down the river on the Wheeling packet, and during the voyage was taken sufficiently till to render him stunid, and on errivariant the

during the voyage was taken sufficiently ill
to render him stupid, and on arriving at the
wharf, being an entire stranger, he was at a
loss to know where to go, until two "manly
fellows," as he termed them, who "appeared
to talk mighty nice," approached, and offered
to show him to a hotel, urging, as a preliminary, that it would be necessary for him to
recuperate by taking some spirits, a proposal
to which he readily assented.

The parties then started toward the corner
of Fourth and Vine-streets, conversing
freely, when Mitchell informed them that he
was on his way to Hazlewood Branch, Saline
County, Missouri, to see some relations.

One of the gentlemen politely told the
Virginian that he resided at Hazelwood
Branch, that he was a merchant there, and
that if no objections were interposed, they
would travel in 'company. Mitchell gladiy
assented to this, as he was a stranger in those
parts, and his knowledge of geography was

limited.

Having arrived opposite the Burnet House, the "merchant" proposed to go to the raitroad office and purchase tickets for the party, leaving Mitchell and his companion in the street. In a few moments, however, he returned, holding in his hand a \$100 bill, which, he said, the ticket agent could not change, at the same time asking Mitchell to loan him \$50, until he could get his trunk from the boat. Mitchell informed him that he had but \$47, but to that he was welcome.

The "merchant" took it, and went into the

The "merchant" took it, and went into the Burnet House, as he said, to write a receipt for the amount, but remained so long that for the amount, but remained so long that his companion was compelled to go after him, leaving "Old Virginia" alone, without suspecting any dishonest intentions on the part of the "manly fellows," but some one seeing his apparent bewilderment, spoke to him; and, on learning his story, informed him that he had been swindled. It was, however, some time before he could be brought to realize that he had been victimized by sharpers, nor would he believe it until the agent at the railroad effice told him that no such person had been in his office, and that he had not refused to "change a \$100 bill" that day. RIVER NEWS.

The Ohio opposite this port continued to The Olino opposite this port continued to recede yesterday, and was still declining last evening, having fallen during the twenty-four hours ending last evening about twelve inches, leaving a channel-depth at this point of eight and a half feet. At Pittsburg the river was falling yesterday, with five and a half feet water there at noon.

The weather here continues beautiful, though rather cool early in the morning and late in the evening. Yesterday was as charming as any of its late watersease.

charming as any of its late predecessors, and what more could be said in its praise?

Business was tolerably animated yesterday at the Landing, which was lined with boats. Freights were in fair supply, though SIGNERS.—The County Commissioners trans-acted the following business at their session rather scarce for the upper ports, at our re-

Yesterday's Louisville Courier remarks: The river continues to fall slowly, with four feet ton inches water in the Canal last evening by the mark. During the previous twenty-four hours the river had fallen only two inches at the head of the Ealls, and five or six inches at the Portland wharf. The weather has cleared-off mild and pleasant. The Woodford, hesice for New Orleans, was at Bransville Sunday, reporting less than five feet water on Sculletown Rar. She was ahead of the rise, which would make fully six water on the lower bars.

Efforts are being made to raise the Interchange, that sunk in White River, by means of Shinkle's marine pump.

GREAT RUN IN THE MISSHSIPPI—Best Time on Record.—Yesterday's Louisville Courier has the following: A communication was received from the Trustees of Colerain Township, in regard to the dangerous condition of the bridge over Dunlap Creek, near Scott's Mill, on the Miami River, which was referred to the County Engineer, with the power to act, at an expense not to exceed \$26.40.

has the following:

By special dispatch from Vicksburg, yesterday, we learn that the Louisville packet Atlantic, Capt. Mc-Gill, has just achieved an unparalleled run on the Miscissippe. She loft New Orleans Saturday evening, and went to Hard Times in twenty four hours—the best run sver made on the Western waters. She beat the brag twenty-four-hour run of the famous J. M. White fully seventeen miles, and beat the fast runs of Eclipse and Shotwell about eleven or twolve miles. The dispatch adds that the "Atlantic had lifty tune of freight, a rough night, and the river rising above Red River.

That stamps her, in point of speed, the chameion.

IMPORTANT LEGAL QUESTION.—An important legal question will probably soon be tested in the Courts of this county, which, so far as we are aware, has never been tried under the Ohio laws. It appears that one of our wealthiest citizens has, through a mistake in the Auditor been paying taxes on a lot belonging to another for fifteen consecutive years, until the whole tax, with six per cent, interest, now amounts to about \$1,000. The mistake, however, has recently been discovered, and the party owning the land, although willing to pay back the amount of the tax, will not pay any interest on it, and a suit will be the probable consequence. The lot in question is worth \$5,000, and the partles are both wealthy, neither knowing fifty thus of freight, a rough night, and the river rising above Red River.

That stumps her, in point of speed, the champion of the Wastern waters. The great runs of the Eclisse and Shotwell on a trial of speed, stripped for the race, and without freight, were to a point some seven miles below Grand Gulf in twenty-four hours. The Atlantic's twenty-four hours. The Atlantic's twenty-four hours. The Atlantic's twenty-four hour run is to Hard Times, about five miles above Grand Gulf, or twelve miles further up the river. Last season, on a trial of speed, the General Quitman made a twenty-four hour run to a point just below Grand Gulf, which was ahead of any other boat, but it falls behind the Atlantic several miles. The Quitman was twenty-four hours and five ninutes to Grand Gulf, and the Atlantic was twenty-four hours to Hard Times-atome five miles furtherson the river. At that rate of running, with a good cavigable river and favorable weather, she could come to Leuis-yilk in four days.

The Upper Mississippi is reported falling above Rock Island, and stationary at Keokuk. There are four feet on the Upper and thirty-two inches on the Lower Rapids. Between Keokuk and St. Louis there are five feet in the channel.

The Missouri River is receding, with three feet four inches on the bars from Weston to the mouth.

Sunday's Picogune says of river matters at New Orleans:

Thore was a fair amount of business transacted on the levee yesterday. The arrivals were not numerous, and falled to make good the departures last evening. The receipts of merchandise were light. Quite a little enthusiasm was excited on the landing, the tree could be a little enthusiasm was excited on the landing, the tree could be a little enthusiasm was excited on the landing, the fair state evening, by the departure at the same hour, of two of our star packets—the Natches, for Vicksburg, and the Atlantie, for Louisville. As much has recently been said in the public prints about the recoiming of gold dollars into pieces of larger denominations, it may be stated that orders for that purpose have been issued from the Treasury Department, in two special cases only, and then on representation that the smaller coins occasioned much inconvenience in the receipts and disbursements; for no sooner are they paid out than they are returned again in business transactions. There appears to be a redundancy of them among commercial classes. The Assistant Treasurer, at New York, was, for the greater facility in count-York, was, for the greater facility in counting, authorized to have about \$2,000,000 of them recoined, and the Assistant Treasurer at St. Louis, upward of \$150,000 for similar

This recoinage, however, applies to the original or earlier Issues, which it is known are smaller in circumference and thicker than the later, and superior coin. Of the former there are now \$2,000,000 and of the later \$6,000,000 in circulation. On a complaint a few days since from Philadolphia, \$200,000 of the newer dollars were sent from New York to the mint, whence they were withdrawn, and many of them again found. withdrawn, and many of them again found their way to New York. While the gold dollars are a great convenience in small, it is considered that there is a redundance of inem for large transactions, and hence the recent special orders in relation to the coinage. There does not seem to be any purpose so to reduce the amount of this deser of coin as to inconvenience the public.
